Learn from anywhere and take your career to the next level with Value Vidya

ABOUT THE PROGRAM

Executive Certificate Program in Project Management with IIM Rohtak is a blended learning program of 5 months duration. Learn about the newest trends and tools in project management from India's top-notch faculty panel and industry mentors.

This course has been designed with an objective to familiarize participants with various phases of the project development cycle. The formulation, design, implementation, evaluation & close-out phases of project are covered in detail.

The content will provide you with the proven, practical body of project management knowledge and skills that you need to demonstrate project management mastery on the job.

In addition to above, Program looks at various facets of designing and managing simple to complex projects and illustrates how good project management practices can result in complex projects. The skills and knowledge you gain in this course will help you avoid making costly mistakes and increase your competitive edge in the project management profession.

The program also looks at various issues including resources leveling, managing the uncertainty in projects and aspects of project budgeting and monitoring. The hands-on training in project software built into the curriculum of this program equips you with necessary skills to manage complex projects with the help of applied project management software.

WHO SHOULD ATTEND

Working executives with an acumen and interest in Project Management and who wish to complement and upgrade his/her knowledge in different practical and relevant aspects of this domain, based anywhere in the world, can enroll for these programs.
